Address all communications to the Editorial Department of the INDEPENDENT to Edmund Norrie. Business letters should be addressed to G. C. Kenyon. This is necessary for the present as the Post Office will withhold all mails addressed simply to the INDEPENDENT, owing to the suit brought by A. V. Gear.

## Our Navy.

The Lehua has been transferred from the naval department to the Interior department. The fast cruiser left quietly yesterday evening with sealed orders. A new crew had been secured and the present trip is evidently for the purpose of seizing any islands knocking around in the Pacific which possibly could be used by the British government as a cable station. The vessel is in command of Professor Brigham and Professor Alexander went along presumably to show him where the islands are. Upon their return with the islands in tow—the clipper will be presented to the Bishop museum together with its present commander, and the museum is to be congratulated on obtaining such rare specimens.

## Sans Souci.

The most lovely spot on Oahu is Sans Souci. This favorite seaside resort, which has been immortalized by the pen of Robert L. Stevenson, who resided there for months, is only four miles from Honolulu and within easy reach of the tramcars. The surroundings and bathing at this famous resort are superior to anything found in the Hawaiian Islands. Cottages and board can be obtained on easy terms. The table set by the manager is better than any offered here at other hotels. For picnics, bathing parties and outings the best accommodation can be secured by giving notice to the manager.

## THE LEGISLATURE.

### SENATE.

The Senate met as usual this morning. A motion was brought in to have a committee appointed on the fresh meat supply of the city and report to the regular session of the Legislature. Adopted. Another that no fresh bills be brought in after the 15th, except by members of the executive was also passed. Minister Smith introduced his cable bill giving the President and Cabinet full power to do anything to secure a cable and to enter into any agreements either as to subsidies, subscription to stock in companies, etc., and to appoint some one to investigate and negotiate in the matter. It passed first reading and to usual course.

A bill was introduced to encourage agricultural enterprise by exempting machinery, etc., from duty. A joint resolution from the House came up regarding the system of registry of land titles. Then came the Currency Bill regarding certificates of deposit for gold and silver. Minister Damon explained the object was to keep a gold reserve in the country and yet to accommodate the public by giving them paper to handle instead of weighty coin. He wished to have a provision inserted to allow gold to be deposited against silver certificates if required, but not silver against gold certificates. The Cabinet were not agreed on the proposal, but from his own experience, he thought it would be good. Minister Smith objected unless the wording of the act made it imperative to redeem gold certificates in gold, and silver certificates in silver. Minister Damon in answer to questions as to profit on the issue of certificates said that the main object was to satisfy the public that the full amount supposed to be held against the silver certificates now extant was really held. That when Bishop & Co. years ago issued silver certificates of deposit every dollar was called for on the withdrawal of the certificates from circulation, and that in twenty-five years of their saving bank only about \$1100 had got been called for; every dollar of which they knew the owners of. The second reason for the bill was to give accommodation to the public who wanted a gold deposit. The third was to allow of the accumulation of gold deposits against silver certificates if possible. President Wilder stated there was a feeling amongst our enemies at home and abroad that we hadn't the money to redeem our certificates and this bill would not tend to reassure this feeling. Minister Damon said no persons were so susceptible to the credit of the government being assailed as Saving Bank depositors, yet during the past year there was an increase of over \$100,000 over withdrawals; of which \$30,000 had been used to withdraw Postmaster General's notes bearing interest at 7, 7½, and 8 percent and the deposits were now only drawing 5 and 6 percent. Senator Baldwin favored the issue of paper certificates. Every month \$150,000 to \$200,000 went to the other islands in silver to pay off hands on plantations. His own plantation paid off mostly in silver. The measure might tend to keep gold in the country and he favored it on that account. Minister Damon said he thought that the Banks of England and France were empowered to issue notes in excess of their coin deposits but in a small country like this without numerous and varied resources he did not favor any innovations of that kind as it might tend to disturbances in the money values of the country. Senator Brown strongly favored inserting the word "respectively" in the 4th section so as to secure coin payments of each kind for the certificates calling for the same. He so moved and the amendment passed. The bill passed its second reading and third reading to-morrow. Minister Smith brought up the matter of the immense expense to the country in engraving bills so often for both houses. It was referred to the committee on joint rules with instruction to notify the House. Bill No. 8 already noticed in these columns making supplementary appropriations to the extent of \$102,780.28 passed its 3rd reading. The Senate then adjourned.

## Timely Topics.

Honolulu, July 9, 1895.

Lord Rosebury is out and Lord Salisbury is in. The change is of course of the greatest importance and it is proper to look into the causes which led to the speedy downfall of the Liberal party. The majority of the Liberals will say that the retirement of Gladstone from the premiership made his party weak, and that Rosebury could not hold the different factions together. Others will claim that the vacillating foreign policy pursued by the Liberal government made the party which it represented and from which it gained its power unpopular. The English people are always preaching peace themselves, but they do not allow their government to do it and they are jealous of any real or imaginary attempt to infringe on their dignity as a nation by any "blasted furriner." The vexed question of Home Rule has also been blamed for the downfall of the Liberals, and there is no doubt that the failure to solve that question had something to do with Rosebury's defeat. It is finally said that the ex-premier's inclination for race horses made him unpopular among the very Christian middle classes who consider betting on the track and all the other paraphernalia of a horse race as works of His Satanic Majesty. And that is the real mistake made by Lord Rosebury. If he had possessed sufficient wisdom he would have dropped horse racing and horses and he would have purchased a Monarch Bicycle and gone out wheeling. We are now expecting a fresh invoice. It took only one month to sell the first lot imported by us. We have only two wheels left and they are both intended for ladies. The wheel is becoming so popular and so fashionable in Honolulu that very shortly everybody that knows enough to be in the move will own a Monarch and spin along streets and roads. As long as you sit on them you can't fall off. The Monarch is as intelligent as a horse and carries you perfectly safe, and it never shies. We suggest to all persons who now ride or who intend to do so to leave their orders for a Monarch now. Our invoice will be here in the "Australia" and it may be too late to secure a wheel after the steamer arrives. Orders are now pouring in. Remember that we are the Sole Agents of the Monarch in the Hawaiian Islands, and that the wheel cannot be purchased elsewhere in Honolulu.

The Hawaiian Hardware Co., Ltd
